

Dear Aspire Community,

Thank you to everyone who attended one of the community meetings on Wednesday. If you were unable to attend, the session was recorded and is available for viewing. We recommend that you watch this recording as it contains important information about Aspire's vaccine mandate.

### [WATCH NOW](#)

Please review the list of frequently asked questions [here](#). If you have further questions after watching the recording and reading the FAQ document, don't hesitate to reach out to the People team, Executive Team or Senior Operations team with your questions and concerns.

As you have likely heard, on Monday, August 23<sup>rd</sup>, the FDA granted full approval of the Pfizer-BioNTech COVID-19 vaccine. If you have been waiting to vaccinate until the COVID-19 vaccine received full approval from the FDA, now is that time! On September 8<sup>th</sup> Mobile Vaccine units will be vaccinating employees in NH. Scheduling other sites is underway. You can also get the vaccine in many convenient local pharmacies. Please reach out to the People team if you need support finding a vaccine site.

In the coming days, if you are unvaccinated, trained Aspire employees will be reaching out to you to discuss your concerns, answer your questions, and support you as you grapple with this new condition of employment. Your participation in these conversations is vital. We need to hear your questions and concerns.

Again, thank you for everything you do to keep yourself and the entire Aspire community safe and healthy. Your efforts to mask, social distance, and vaccinate are the collective actions that will help Aspire now and into the future.

With Gratitude,  
Lou Giramma
